

Dear Parents,

This year, we will be using Spelling City in our classroom. Spelling City is a website that helps students practice their weekly spelling words while having fun at the same time.

I will post the weekly spelling lists on Spelling City and your child can review the words and play spelling games to reinforce the learning process.

To get started, simply go to <http://www.spellingcity.com/geppert/>. You should see the lists arranged by date. This week's list is dated September 11th. Please do not practice words before I give the students the pretest on Monday. The pretest helps me gauge my instruction during the week. Thank you for your understanding.

Enjoy and let me know if you have any questions.

Thank you,  
Mrs. Rizzo
