

The Nies News

Feb. 2, 2018

Important Dates:

Feb. 9: Hot Lunch forms due,
field trip forms due
Feb. 12: Pal Joey's dinner out
Feb. 13: Valentine's Day party
Feb. 14: Ash Wednesday
Feb. 15 Field Trip
Feb. 16: 11:55 Dismissal
Feb. 19: No School
Feb. 20: Hot Lunch:
McDonald's Chicken

Religion: We have been discussing Pentecost and how the Holy Spirit guides us in our lives. We will have our Chapter 9 test on Monday.

Vocabulary Unit 10 Words:

Distress, drench, dwell,
juvenile, outstanding,
proceed, register, sift, spree,
tardy, unfit, variety

Science/Social Studies: In Science, we are discussing how plants reproduce. In Social Studies, students reviewed the importance of the resources found in the Northeast. We also discussed the importance of the fishing industry.

This week has been full of many fun events in celebrating Annunciation School! Thank you for the treats, gifts, and notes of appreciation for Staff Appreciation Week. Your children make me feel special every day through their excitement to learn new things and their hard work. I am blessed to witness the gifts that God has given this world through them.

On Feb. 15, we will be traveling to the Batavia Fine Arts Center to watch "The Wizard of Oz". Permission forms were sent home today in your child's Friday Folder. We are still in need of drivers/chaperones for this trip. Please let me know if you are able to join us as soon as possible.

Finally, we will be celebrating Valentine's Day in a few short weeks. Your child is welcome to bring cards/treats for their classmates. A class list will be sent home next week. Enjoy your weekend!

Mrs. Nies

Reading/Language Arts:

In Reading, we finished reading "Tales of a Fourth Grade Nothing". Students will be working on final activities to celebrate and retell the key events from this book. Your child should be working on their "Movie Madness" project. These are due next Friday.

Math: We have begun long division. This week we learned how to estimate quotients, and solved problems to find one digit quotients with remainders. Please continue to review basic multiplication and division facts at home with your child. The long division process can be difficult for some children. We will spend several days to be sure this skill is mastered and maintained. (See pages 172-175 for review).
